

Applicant Bio:

Hello! I'm Kate Lim (she/her) from Dalhousie University, and I'm excited to run for the Atlantic Regional Director position at CFMS. As a pharmacist turned medical student, I have firsthand experience with many strengths and challenges of the Atlantic healthcare system. Through my past experiences, I believe that I am a strong candidate for the Atlantic Regional Director role.

As an executive member of CAMSA (Canadian Atlantic Medical Students Association), I had the privilege of discovering some of the unique challenges facing Atlantic medical students. As part of CAMSA's mission, I served Atlantic medical students by uniting, collaborating among, and advocating for them.

My desire as the Atlantic Regional Director is to create as much support and resources for medical students as possible to ensure that no one is disadvantaged by the isolated nature of the Maritimes. Atlantic Canada is growing rapidly, along with its need for more medical professionals. With new medical school campuses being built in the next few years, I want to ensure that their needs are heard and addressed before their inception. I would like to be the liaison that provides insights on the strengths and weaknesses of any existing institutions to ensure that we are providing quality medical education in these provinces.

Furthermore, I hope to work on various projects that I've mentioned in my platform, such as creating the Atlantic alumni directory, solidifying the Atlantic Med Games, and continuing the CoAMS.

Thank you for considering my application. I look forward to meeting you all soon!
