Background

The Canadian Federation of Medical Students (CFMS) is the representative voice of Canadian medical students to the national medical organizations, to the federal government, to the public, and to other external bodies. The CFMS represents over 8000 medical students at 15 Canadian medical schools from coast to coast. It is the mission of the CFMS to represent, support, and connect its members. The CFMS aims to communicate within its membership, as well as from its membership, to the world at large. As an ever-expanding organization, the CFMS continually strives to meet the consistent and changing needs of Canadian medical students.

Introduction

Through the International Federation of Medical Student Association (IFMSA), which represents, connects and engages medical students from 125 countries across the world, the CFMS organizes clinical and research exchanges for medical students to explore innovation in medicine, new health systems and healthcare delivery in other settings. These experiences allow CFMS members an opportunity to learn medicine within a different healthcare system and expand their inter-cultural awareness. Similarly, this program allows medical students from other countries to learn within a Canadian hospital or research facility, encouraging international collaboration. The CFMS National Exchange Officer (NEO)-Incoming is responsible for facilitating research and clinical exchanges in Canada for International medical students.

Term

1. The position of NEO-Incoming is a two-year position. The NEO-Incoming will be recruited through the Spring Nominations Committee process granting a transition period until they assume office immediately following the Annual General Meeting of the same year.
