

Presidents Report:

The Canadian Federation of Medical Students (CFMS) is the representative voice of Canadian medical students to the national medical organizations, to the federal government, to the public, and to other external bodies. The CFMS represents over 8000 medical students at 15 Canadian medical schools from coast to coast. It is the mission of the CFMS to represent, support, and connect its members. The CFMS aims to communicate within its membership, as well as from its membership to the world at large. As an ever-expanding organization, the CFMS continually strives to meet the consistent and changing needs of Canadian medical students.

I have been privileged to continue representing students from across the country and ensure you have a strong voice at the National table. As you can imagine the pandemic has continued to have a huge impact on learners across the country. The pandemic has continued to highlight many systemic barriers students are facing and have given us a unique opportunity to work towards positive solutions with our external partners. It is my responsibility to ensure that the diverse needs of students across the country are included in important conversations.

Our team continues to work hard to creating a culture change without our organization and with how we engage with our external partners. I am so proud of our team and their ongoing commitment to equity, diversity, inclusion, and Indigenization. Since we last met, we were fortunate enough to Welcome Sara and Surahbi to our team and have been so grateful for their contributions. It is truly an honour to continue to meet the brilliant learners we have across the country. This team has had to overcome significant challenges, but it has given us the flexibility to make changes. Although we have only had so much time and capacity, we are moving in the right direction.

There have been some key topics that have required significant attention and I am continually grateful to our Representative Round Table, President Round Table and Class Advisory Groups for their quick action to support addressing these issues. Their contributions continue to allow me the opportunity to represent all better. We continue to work with our external partners on ensuring visiting electives return as soon as possible. There is no question the importance of these opportunities and we want to ensure schools have equitable access to these opportunities. There has also been active work happening to ensure the CaRMs process continues to prioritize students needs and privacy. Our partnerships with RDoC, FMEQ and FMRQ have been crucial in strong advocacy to ensure the integrity of the Match is maintained and students have a strong voice in any conversations around the Match Tender Process. We have been well supported by many Past-Presidents through our organization's history.

I am hopeful for the future of medical education. Change is definitely not happening at the speed that I would like but as I continue to work with student leaders, changemakers in our schools and see conversations start to unfold, I know we are all making a difference. I could not do any of this without my team and without all of you.

Mahsi Cho (Thank You),

Santanna Hernandez

CFMS President

Appendix 1: Meetings Attended October 1st, 2021- April 12th, 2022.

Date	Meeting	Location
Oct 1, 2021	AFMC SA Deans	Teleconference
Oct 4, 2021	CaRMs Update	Teleconference
