

My name is Breanna Fang and I am a medical student at the University of Calgary. Before medical school I completed my Bachelor of Science majoring in Math and Physics at the University of Alberta. As an educator with years of experience, I understand the importance of wellness in achieving success. I am running to be your Director of Student Affairs to ensure that medical students have the resources accessible to them to establish a strong foundation for their wellness practices. With my experience in event planning, including creating a theatre program for youth in my community, I bring strong communication and organizational skills to the position.

My platform focuses on three main points. Firstly increasing awareness and participation in student affairs committee projects. By increasing participation and awareness, we can better serve the needs of medical students and promote overall wellness. The second point is expanding member benefits for wellness discounts to better reflect the diverse needs and preferences of medical students. Lastly, I am committed to promoting diversity in our projects and initiatives, ensuring that everyone's voice is heard and valued.
