

Mujtaba Ibrahim

Hello everyone, my name's Mujtaba Ibrahim, I'm excited to be running for VP Finance of the CFMS! I'm a second-year medical student at the University of Saskatchewan. I was born in Ontario, and spent time growing up in Sudan, Egypt, and Québec. If you see me around, feel free to strike up a conversation in Arabic or French :)

As a member of the CFMS, you deserve a hard-working board that's prepared to take on their respective roles. As VP Finance, I'd be ready to execute my duties on day one, and work to enhance the capabilities of the CFMS at large. I have spent the past year working as the VP Finance of the Student Medical Society of Saskatchewan (SMSS). This role entailed building the budget for the entire medical society, acquiring funding from the college, and ensuring internal adherence to the budget. This position required I thoroughly engage with every division of the SMSS, and it's through this experience that I've developed an exceptional consultative approach. I have also spent the past two years working as the VP Finance for the Black Medical Student's Association (BMSA) of Saskatchewan. My greatest accomplishment within this role was when I increased our budget as a student's association multiple fold, through an external fundraising effort we had never done before. Zack has had an impressive impact on the CFMS, and due to my skillset and background, I'm confident I'll be able to effectively build on it.
