

Hi, My name is Oumar

I'm an MD Candidate (2028) at Queen's University! I started my journey at the University of Waterloo, where I realized I preferred medicine over engineering.

The last few years have been about forming relationships- At both Queens, Waterloo, and beyond, I've made lifelong friends that have made me truly appreciate what community means. Since 16 through undergrad, I worked at a local restaurant and non-profit- experiences that made me outgoing, approachable, and eager to speak with anyone from all walks of life. My friends call me energetic, passionate, and a team player.

Outside of work, volunteering, or making Anki decks, I'm usually gymming, running, or country-hopping. A few months ago, my brother and I rode motorcycles from southern Vietnam to the Chinese border. Now that school keeps me "homebound", I'm investing that energy into what I've always loved: **building community**.

As your Ontario Regional Director, I plan to do just that- representing Ontario's medical student community nationally, while ensuring your voices are heard. I've spent the last few weeks consulting and building relationships with amazing people: current and former CFMS Board members, subcommittee members, OMSA leaders, VP Execs at Ontario schools, and current or past regional directors—whether virtually or over coffee. I want you to know that **my platform is your platform**- it was built by your voices, your input, and your contributions; and I plan to listen to your voices as an Ontario Regional Director.

Please reach out- Thank you!

Oumar
