

Applicant Bio:

Hi! I'm Kate Lim (she/her), a third-year medical student at Dalhousie and former pharmacist. I'm excited to run for CFMS Vice President of Finance.

I bring a strong foundation in financial stewardship, national student advocacy, and operational leadership. My experiences span serving on the CFMS Board, co-leading the Atlantic Med Games, managing sponsorship negotiations, and leading budgeting and project coordination for CAMSA. I've also co-founded national student initiatives and worked with organizations like the Canadian Ophthalmological Society, Orbis, and medical student associations across the country.

As VP Finance, I aim to ensure that our finances are not only transparent and well-managed, but also centered on the needs of students. I plan to streamline reimbursement systems, increase financial clarity for directors and reps, and grow our travel equity support. I also believe in the power of collaboration — I'll work with partners like OMSA, CMA, and equity-seeking groups to share best practices and strengthen CFMS's financial future.

My goal is simple: to ensure that CFMS finances work for students, with students, and because of students.

Thank you for your consideration!
